## Georgia Theme Park Project

### Project:

Students will work in groups of 3-4 people to create a Georgia theme park. The park will include at least 5 different periods of time in Georgia. Here are the different eras in Georgia history your group can use:

- a. Native Americans
- b. Colonial Times
- c. Revolutionary War
- d. Antebellum Georgia
- e. Civil War/Reconstruction
- f. World War I/World War II
- g. Civil Rights
- h. Modern Georgia (1970s-present)

Your project must include a visual drawing of your group's Georgia Theme Park as well as captions to describe all of the rides, theaters, food stands, pavilions, etc. You will also include a map of the state to show where you would have the park located and why. A map and butcher paper will be provided to you to complete the project.

Here is an example of what to include in you caption:

"The roller coaster in Modern Georgia is called The Champion. This roller coaster takes the rider through the growth of sports in Georgia. When waiting in line, the rider is able to read different signs containing information about different teams in Georgia. The signs will contain information about the Atlanta Braves, Atlanta Falcons, Atlanta Hawks, Georgia Force, and Gwinnett Gladiators. The scenery around the roller coaster will made up of outside and indoor pictures of the different arenas and stadiums used by the sports teams in Georgia. When the rider gets to the covered part of the ride, he/she will be able to watch video clips of the sports teams in Georgia."

### Grading:

Groups will be graded on the attached Rubric.

Important Note: Teacher reserves the right to lower a group member's grade by 5 points if the member is not helping his/her group with the project. These point deductions will be done on an individual basis.
